

# ATE Brake Boosters

## Powerful braking force, mile after mile

### Peak performance across the board

ATE brand Brake Boosters provide powerful assistance to the braking system which helps lower the pedal force necessary to engage the vehicle's brakes. Brake boosters are an important component of the vehicles overall brake system.

#### Reliable and a long service life

High-quality materials, meticulous workmanship and sophisticated design – that's how we significantly reduce premature abrasion.

#### Safe braking made easy

Whether it's a case of stop and go or emergency braking, our brakes respond reliably in any situation, even at low pedal force.

#### Problem-free replacement

ATE brake boosters are easy to install. This saves time and ensures a smooth replacement procedure.

#### Benefits & Features

- | ATE brand offers OE quality for all components, not remanufactured.
- | Part of the range is equipped with brake assistant, pressure/vacuum sensor or position sensor.

#### Technical Data

- | Brake boosters available in single or tandem design and in all desired sizes.
- | The device housings are available in conventional steel or in weight-reduced aluminium for all established makes of vehicles

The ATE brand encompasses brake pads and rotors, boosters, hydraulic control units, master cylinders, wheel speed sensors, brake wear indicators, calipers, brake fluid, hoses, reservoirs, and wheel cylinders. Continental is a global OE supplier of brake systems and components, and the ATE line offers many genuine OE parts.
